Personal Details & Profile

My History & Profile

Hello a bit about me: I am exceptionally well organized, have strong work ethics and have a willingness to work hard to achieve employer objectives. I have excellent communication skills. I am articulate and personable with a special talent for relating easily to a diverse group of individuals. Today's global world almost everything relying on Computerised with the help of IT development. Modern communications including emails, cell phones, modern entertainment including digital cable, mp3s and transportations including car engine systems, aeroplane navigation, shopping including online and offline, storing personal information the lists go are increasingly depending on modern technological development. Since, I came to the United Kingdom. It was my dream to work in IT industry. I have completed few courses related to IT. Which includes diploma and advanced diploma in information technology. After Completion of various courses, I thought it is not enough to get it in the real job. So I have decided to study in business to get the knowledge about the business. So I took and admission in diploma in business management. After completion of all these courses. I joined the University of Ulster to complete my bachelor Degree.
